Puneet Gupta

Founder, Stealth AI | Member@South Park Commons | National Awardee
Gurugram, Haryana, India

Summary

From upgrading weapons systems to building sovereign AI, my journey spans defence technology, waterless innovations for the Armed Forces, and mission-critical decision infrastructure. Built ventures worth over $100M collectively. Currently building sovereign AI and served as Jury Member, Born Unicorn Season 1.Awards: • Entrepreneur of the Year, NewsTv 18 (’23) • Times 40 Under 40 (’22) • E4M D2C Revolution Summit Awards (’22) • DST Certificate of Appreciation (’22) • TiE Lumis Entrepreneurial Excellence Award (’21) • Ayushman Bharat “Market Access Programme” (’20) • ET Rise “Top Start-up of the Year” (’20) • CII Startupreneur of the Year (’20) • STEVIES Award (’20) • National Entrepreneurship Award, Govt of India (’19) • Saudi Aramco “Asia Business and Culture Program” (’19) • TiE Young Entrepreneur of the Year (’19) • Business World Young Entrepreneur Award (’19) • TiE Spirit of Manufacturing Awards (’19) • PwC LevelNXT Award “The Next Big Disruptor” (’19) • National Small Business Award “Innovation of the Year” (’19) • ET “Leaders of Tomorrow” (’18) • ET “SME of the Year” (’18) • UK’S DIT “TechRocketShip - Best Healthcare Startup” (’18) • Embassy of US “Top 4” Innovative Companies in India” (’17) • Krypto Lab “Top 30” Innovative Companies across the globe” (’17) • IIT Delhi “Top 10 Innovative Companies” (’17) • Honorable President of India “Presidential Appreciation” (’17) • US Embassy “Nexus Program” (’17)

Experience

South Park Commons

Member & Explorer
July 2026 - Present (4 months)
Bengaluru, Karnataka, India

Member & Explorer at South Park Commons — engaging with a global community of founders, technologists, researchers and investors around ambitious ideas, exceptional talent and company building.

Stealth AI Startup
Founder
April 2025 - Present (1 year 7 months)

Building an Indian AI-driven decision infrastructure company powering real-time, mission-critical decisions across governments, regulated institutions, and enterprises.

SUMMA
Board Member
May 2026 - Present (6 months)
Israel

Supporting the global expansion of an AI-driven decision intelligence platform transforming audit, assurance, and enterprise workflows.

Falcon Innovation Fund
Co-General Partner
April 2026 - Present (7 months)
United States

Building Falcon Innovation Fund (https://falconinnovationfund.com/), a $100M global AI, Deep Tech, and Defence Tech venture capital platform with an institutional fund structure investing across the US, Europe, and GCC. The investment team brings experience across early-stage venture, growth investing, and secondaries, including prior investments in Palantir, UiPath, Klarna, and Netskope, while partnering with founders backed by leading firms such as Andreessen Horowitz, Kleiner Perkins, and Y Combinator. I contribute an operator's perspective to the investment process, supporting founder evaluation, strategic partnerships, and portfolio value creation. Founders, investors, family offices, and strategic partners can reach me at puneet@falconinnovationfund.com.

Intertech Technologies Pvt. Ltd.
Board Member
November 2025 - Present (1 year)
New Delhi, Delhi, India

Focused on governance, strategic direction, and long-term value creation for a 20+ year engineering and manufacturing company with 6 manufacturing units, 2,000+ installations, and 1,000+ customers across India and global markets, while supporting defence engineering and mission-critical technology initiatives.

Clensta
Founder
February 2016 - March 2025 (9 years 2 months)
Gurugram, Haryana, India

Built and exited Clensta, completing the full innovation lifecycle—from defence R&D and grant-backed innovation to deployment, induction, and adoption, then scaling the technology into a consumer brand through D2C, retail, and omnichannel distribution.

TAK Technologies Pvt. Ltd.
Core Team Member
March 2011 - February 2016 (5 years)
India

Built DarVi, an optoelectronic defense startup delivering night-vision and thermal systems across 100+ defense contracts with patented technology deployed on the ground.

TAK Technologies Pvt. Ltd.
Head Of Strategy
December 2008 - March 2010 (1 year 4 months)
India

Led product roadmap, government engagement, and scale-up planning for defense deployments.

Honeywell Automation India Ltd
Engineer
July 2007 - November 2008 (1 year 5 months)
Pune District, Maharashtra, India

Designed deterministic control logic, automation workflows, and system-level calculations for complex, large-scale infrastructure.
